Cautionary Statement

The statements with respect to the financial outlook of NEC Electronics and its consolidated subsidiaries are forward-looking statements involving risks and uncertainties. We caution you in advance that actual results may differ materially from such forward-looking statements due to changes in several important factors.

1. Business Results

1.1 Overview of the Three Months Ended June 30, 2009

During the three months ended June 30, 2009, the plunging global economy finally bottomed out from the recession, which started from last autumn, and showed a sign of gradual recovery. An advancement of inventory adjustments and governments' economic stimulation measures shored up recovery in production around the world. Especially in China, the government's support measure to buy home appliances triggered consumer spending and expanded domestic demand. As for Japan, the economy, mainly corporate sectors, showed a recovery trend through resurgence of exports.

Amidst this economic condition, the semiconductor market in which NEC Electronics operates is also starting to see improving demand with customers' production hike and increase in orders due to their inventory accumulation. Part of this recovery is fueled by strong demand for flat-screen TVs and compact netbooks. Although not fully recovered, automotive market is also triggering the semiconductor demand with the growing market for hybrid vehicles thanks to the governments' environmental regulations and support measures to buy eco-cars.

However, housing market in U.S., which triggered the recession, stays stagnant, and confidence of individual customers is still sluggish while unemployment rate remains high. These lingering uncertainties indicate the difficulty of sharp improvement in global economy in the near term. NEC Electronics forecasts the market condition to remain challenging and unpredictable.

Total assets at June 30, 2009 totaled 471.8 billion yen, a 10.8 billion yen decrease from March 31, 2009. This was mainly due to a decrease in shareholders' equity from posting net loss attributable to NEC Electronics Corp., despite the increase in accounts receivable following an increase in net sales.

Compared to March 31, 2009, NEC Electronics Corp. shareholders' equity was 19.8 billion yen lower at 108.3 billion yen. This was due to posting net loss attributable to NEC Electronics Corp. of 20.7 billion yen for the period from April to June 2009.

The NEC Electronics Corp. shareholders' equity ratio decreased by 3.6 points from March 31, 2009 as a result of a decrease in NEC Electronics Corp. shareholders' equity.

Interest-bearing debt totaled 136.0 billion yen, increasing 19.2 billion yen from March 31, 2009 mainly due to increased borrowing.

2.2 Cash Flows

Three Months Ended June 30, 2009

Cash and cash equivalents at end of period	159.0	79.5	828	(79.5)

Despite a decrease in inventories, net cash used in operating activities for the three month ended June 30, 2009 was 24.7 billion yen, due to posting net loss and increase in accounts receivable.

Payments for property, plant, and equipment in the amount of 16.7 billion yen brought the total net cash used in investing activities to 17.4 billion yen.

The foregoing resulted in negative free cash flows of 42.1 billion yen.

Financing activities provided net cash in the amount of 19.4 billion yen due to proceeds from sale lease back from property, plant, and equipment and the borrowings.

As a result of the above, combined with the positive impact of currency exchange fluctuations in the amount of 0.8 billion yen, the net decrease in cash and cash equivalents was 21.8 billion yen, resulting in cash and cash equivalents at June 30, 2009 totaling 79.5 billion yen.

Accounting Change

Effective April 1, 2009, the Company adopted SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements—an amendment of Accounting Research Bulletin ("ARB") No. 51* ("SFAS No. 160"). SFAS No. 160 establishes accounting and reporting standards for the ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and to the noncontrolling interests, changes in parent's ownership interest, and the valuation of retained noncontrolling equity investments when a subsidiary is deconsolidated. Upon the adoption of SFAS No. 160, which were previously referred to as minority interests and classified between total liabilities and stockholders' equity on the consolidated balance sheets, are now included as a separate component of total equity. In addition, consolidated net income on the consolidated statements of income now includes the net income (loss) attributable to noncontrolling interests. These financial statement presentation requirements have been adopted retrospectively and prior year amounts in the consolidated financial statements including the consolidated statements of cash flows have been reclassified or adjusted to conform to SFAS No. 160. The adoption of SFAS No. 160 did not have a significant effect on financial position or results of operations.
