14-pin Exchange Adapter for QB-V850MINI(L) Emulator

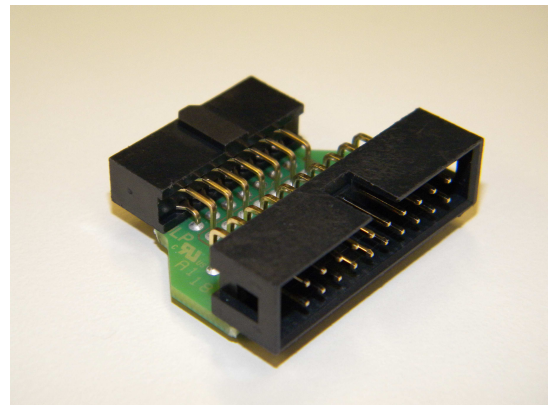

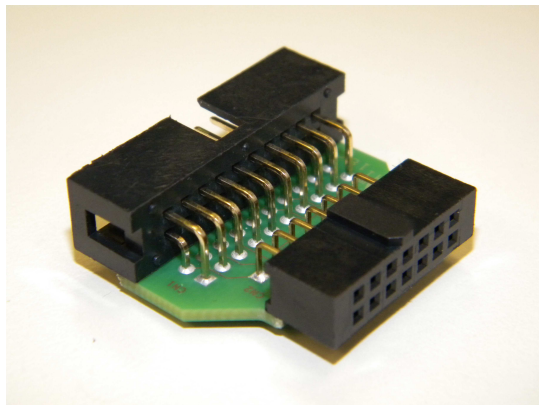

This conversion adapter can be used to connect the 20-pin 2.54-mm pitch debug connector of the QB-V850MINI(L) - specific user interface cable to a 14-pin 2.54-mm pitch target connector. Using this conversion adapter allows connection of the QB-V850MINI(L) emulator to a board which was originally designed for an E1 emulator.
