

RENESAS TECHNICAL UPDATE

1753, Shimonumabe, Nakahara-ku, Kawasaki-shi, Kanagawa 211-8668 Japan
Renesas Electronics Corporation

Product Category	RF & Microwave device		Document No.	TN-RFT-A001A/E	Rev.	1.00
Title	Added the packing specification of non-reel for RF & Microwave transistor		Information Category	Change of packages		
Applicable Product	RF & Microwave device (MMIC, RF transistor)	Lot No.	Reference Document	N.A		
		From July 2014				

1. Outline and Affected products;

The packing specification of non-reel products is added for RF & Microwave transistors.
Please refer to the table 1 for the applicable product.

2. Details of the packing specification of non-reel added

In non-reel products, we will add the following specifications.

The current specification; Magazine case (Fig.1)

Specification after change; Magazine case or Embossed tape 12 mm wide (Fig.2)

3. Reason for changes

For unification of packing specification

4. Schedule of changes

We are planning to apply from July, 2014 production.

5. Electrical characteristics and reliability

There is no influence of the electrical characteristics and reliability by this change.

Table1 Applicable product list.
