3. Updating Your Product

Download an e² studio installer file from the following Web site and install it.

There are two types of installer, for on-line called "Web installer" and for offline.

The offline installer of the revision V4.3.0.008 will be published on April 20, 2016.

The Web installer for V4.3 has already been published on Feb 10th, but please wait until April 20 to attempt installations for V4.3.0.008.

e² studio download site:

http://www.renesas.com/e2studio_download

Note:

For on-line installations, please use the latest V4.3 Web installer. V4.2 or older installers should not be applied.

If internet connections are unavailable, please use the offline installer.

For details, see the instructions on the download site stated above.
